

# HMK® R162

## Algae Remover

**Special spray cleaner for effortless removal of algae and marks caused by plants from paths, walls and steps etc...**

**For polished, honed and all textured finishes on natural and man-made stone surfaces.**

**Chlorine and acid free.**

HMK® R162 removes with ease and restricts the re-growth of algae, moss and lichen from paths, steps, patios, facades, roof tiles, furniture, gravestones and fencing in all natural and man-made stone and wooden products. The active components of R162 restrict re-growth and ensure that surfaces remain clear of vegetation and algae for longer. R162 can be used on polished surfaces.

For small areas use HMK® R162g Algae Remover -ready to use- spray bottle and for larger areas use HMK® R162k Algae Remover -concentrated.

**Instructions:** Ensure the surface is clear and dry and spray evenly onto the surface; R162g undiluted and R162k diluted 1:10 with clean water in a garden sprayer or a watering can fitted with a rose or “T” bar. After a few days the algae and plant stains will automatically begin to disappear. Remove any residual contamination with clear water and a stiff brush or scrubbing brush. Repeat the cleaning procedure in the case of very strong contamination. Hard and encrusted deposits should be removed manually before application.

**Important:** Do not apply in direct sunlight. Plants and lawns must be protected against splashes. R62 may need to be reapplied if it is rinsed off by rain within 2-3 days of application.

**Tip:** After using R162g remove the nozzle and rinse thoroughly with water to avoid blockages.

**Coverage:** R162g ½ liter spray bottles will treat about 30 – 50 sq ft of medium/heavy contamination up to 100 sq. ft. if contamination is light. R162k will treat around 200 – 270 sq.ft./liter applied from a watering can and about 1,600 sq. ft. if applied by garden sprayer on light contamination.

**Warning:** HMK ® R162k/g is a chemical substance – ensure it is stored well out of the reach of children. See Material Safety Data Sheet for more detailed information.

**Packaging:** HMK® R162g 12 x ½L bottles/box; HMK® R162k 12 x 1L bottles/box; 2 x 5L bottles/box.

**Storage:** Store in a cool place out of the reach of children. Keep lid tightly closed.

**Testing:** Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. Do not use the product in temperatures below 50 and above 80°F.

**Limitation of liability:** The liability of HMK® Moeller Stonecare and/or ACI International for defective products and any claims for damages whatsoever is limited to the purchase price of the products. HMK® Moeller Stonecare and/or ACI International shall not be liable for any consequential damages. No other warranty or representation is made or implied.
